PATENT APPLICATION

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Docket No: Q89305

Koji KODAMA, et al.

Appln. No.: 10/543,055

Group Art Unit: 1755

Confirmation No.: 5687

Examiner: Unknown

Filed: July 21, 2005

For:

MAGNESIUM HYDROXIDE, COMPOSITE MAGNESIUM HYDROXIDE-SILICA PARTICLE, METHOD FOR THE MANUFACTURE THEREOF, METHOD FOR SURFACE TREATMENT THEREOF, AND RESIN COMPOSITION AND ELECTRIC CABLE MADE BY USING THE

SAME

REQUEST FOR CORRECTED OFFICIAL FILING RECEIPT

ATTN: Office of Initial Patent Examination

Filing Receipt Correction Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Sir:

We enclose a copy of the Official Filing Receipt for the above-identified application and request the following corrections:

Assignment for Published Patent Application YAZAKI CORPORATION

Title

Magnesium hydroxide, magnesium hydroxide/silica composite particle; process for producing these, method of surface treatment of these, and resin composition and electric wire containing pr produce with these

MAGNESIUM HYDROXIDE, COMPOSITE MAGNESIUM HYDROXIDE-SILICA PARTICLE, METHOD FOR THE MANUFACTURE THEREOF, METHOD FOR SURFACE TREATMENT THEREOF, AND RESIN COMPOSITION AND ELECTRIC CABLE MADE BY USING THE SAME

Verification for the requested corrections is indicated on the Assignment filed July 21, 2005.

Respectfully submitted,

Mark Boland

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

ASSIGNMENT

Whereas I/we, Koji KODAMA of Shizuoka, Japan; and Makoto EGASHIRA of Nagasaki, Japan

hereinafter called assignor(s), have invented certain improvements in MAGNESIUM. HYDROXIDE COMPOSITE MAGNESIUM HYDROXIDE SILICA PARTICLE, METHOD FOR THE MANUFACTURE THEROF, METHOD FOR SURFACE TREATMENT THEREOF, AND RESIN COMPOSITION AND ELECTRIC CABLE MADE BY USING THE SAME and executed an application for Letters Patent of the United States of America therefor on

July 15, 2005

and

Whereas, YAZAKI CORPORATION of 4-28, Mita 1-chome, Minato-ku, Tokyo 108-8333 JAPAN

(assignee), desires to acquire the entire right, title and interest in the application and invention, and to any United States patents to be obtained therefor,

Now therefore, for valuable consideration, receipt whereof is hereby acknowledged

IVWe, the above named assignor(s); hereby sell, assign and transfer to the above named assignee; its successors and assigns, the entire right, title and interest in the application and the invention disclosed therein for the United States of America, including the right to claim priority under 35 U.S.C. § 1.19, and lowe request the Director – U.S. Patent and Trademark Office to Issue any Letters Patent granted upon the invention set forth in the application to the assignee, its successors and assigns; and lowe will execute without further consideration all papers deemed necessary by the assignee in connection with the United States application when called upon to do so by the assignee.

Date: July 15, 2005

STATES SAME

(Legalization not required for recording but is prima facie evidence of execution under 35 U.S.C. §261)
